

Press Statement on COAI congratulating TRAI for the completion of 25years of their service:

“We would like to congratulate the Telecom Regulatory Authority of India (TRAI) today for the completion of 25 years of their service in the development and growth of the sector which is integral in the country’s pathway to achieving the Digital India vision. In the last couple of years, TRAI has worked closely with the Government of India and service providers to create an ecosystem which is crucial especially today as the industry readies to usher in 5G to catalyze the digital economy. We will continue to work in alignment with TRAI and hopefully put up suggestions and recommendations which are beneficial for the sector. We are thankful to TRAI for their exceptional work until now, appreciate their hard work done for the sector, and look forward to many more fruitful years of working together.”

To be attributed to Lt. Gen. Dr. S.P. Kochhar, Director General, COAI.
